The „Tanja Raich Quartett“ puts expressional jazzy arrangements of various – well known and unknown – pop songs on stage. Tanja’s colorful voice covers everything from being rough, rock-solid and tender-sensual.

This way she gives every song that special touch – her special touch. Tanja is accompanied by Christoph Eisenburger on piano, Werner Lauscher on bass and Luc Nelissen on vocal percussion.

The three of them have years of experience in several musical ensembles and add their own signature to every song.

Their arrangements rely on both pure song material and room for improvisation.
